PROFESSIONAL SUMMARY

Java Backend Developer skilled in Spring Boot, Hibernate, and MySQL. Strong in SQL, debugging, and MVC architecture. Built an AI-based Resume Ranking System integrating backend with machine learning. Currently learning Microservices.

WORK EXPERIENCE

Accenture – System Developer Intern (Remote) | Apr 2025 – Aug 2025

- Worked on enterprise workflow automation using SAP ABAP
- Debugged backend logic and optimized SQL queries
- Collaborated with teams and gained exposure to enterprise-level architecture

CodSoft - Java Programming Intern (Remote) - Nov 2024

- Developed backend modules using Java
 - Applied OOP and clean coding practices
-

PROJECTS

AI-Based Resume Ranking System

Tech Stack: Spring Boot, Machine Learning, MySQL

- Built resume ranking system based on job descriptions
- Developed REST APIs and implemented ML-based scoring
- Improved screening efficiency through automation

 **GitHub:** [resume-ranking-system](#)

Employee Management System

Tech Stack: Spring Boot, Hibernate, MySQL

- Developed REST APIs for employee management
- Implemented CRUD using layered architecture

 **GitHub:** [Employee Management System](#)

TECHNICAL SKILLS & STRENGTHS

- **Languages:** Java, SQL | Backend: Spring Boot, Hibernate, REST APIs, JWT
- **Frontend:** HTML, CSS, JavaScript, React | Databases: MySQL, Oracle
- **Tools:** Postman, Git, GitHub, Eclipse, VS Code, MySQL Workbench
- **Strengths:** Problem-solving, Debugging, Quick learner

EDUCATION & CERTIFICATIONS

- B.E. Computer Science Engineering – SGBAU | CGPA: 8.42 (2024)
 - Java Full Stack (Naresh IT) | Generative AI | TNS Foundation
-
